

Maths

Reception children will be doing maths daily. The children will begin counting to a range of objects up to 6 and then progressing onto 'Match, Sort and Compare' unit learning to compare objects by size, shape and pattern. The children will end the term talking about measure and patterns of shape.

English

The class will use Write Stuff to investigate the book 'Grandad's Island' looking at sentences and how stories are put together. The children will be concentrating on recognising and writing their name, and writing initial sounds for pictures. The children will use their imagination to create stories using role play and small world. As they learn their first set I sounds they will start to orally blend and segment words and start reading simple CVC words.

Phonics

The children will begin learning their set I sounds daily following the scheme Read Write Inc. There will be a Phonics workshop for parents to attend.

PSHE - Being me in my world

Covers a wide range of topics including a sense of belonging, welcoming others and being part of a school community.

PE

Our PE days are **Tuesday and Wednesday**. The children will be in the hall and outside working on coordination, teamwork, resilience and sportsman ship in PE. Please ensure that your child has a full PE kit in school every day of the school week.

RE

In RE the children will be looking at Creation. The children will be making links to 'Who are we?'

Oakhill Church School

Chestnut Reception

Term 1 Autumn 1

Art and DT

The children this half term will be drawing self portraits of themselves and looking at colour mixing.

Music- New Beginnings- The children will be learning basic nursery rhymes and finding the beat and pulse to the songs.

Computing

The reception children will be using Beebots planning a map and following instructions.

Topic- Understanding the world What Makes Me Me?

Reception class will be learning about the rules and expectations of school, working on their communication skills interacting with others in the class; sharing toys, asking and answering questions and expanding their concentration levels. The children will be exploring themselves; learning about what makes them special through different provocations and through play. They will be learning about everyone's family and home, creating a class family tree. The children will learn about their body and their feelings; exploring being happy, sad, angry and worried. Throughout the term we will be learning about Autumn, going on senses walk and talking about the changes that happen.
